

JOMAR PAJENAGO

Data Analyst | Business Intelligence | SQL & Data Transformation

jomarpajenago@gmail.com | +63 920 554 1107 | Philippines | [linkedin.com/in/jomarp21/](https://www.linkedin.com/in/jomarp21/)

PROFESSIONAL SUMMARY

Data Analyst and BI professional with experience in SQL reporting, data transformation, dashboard development, recurring reporting, and data quality assurance. Experienced in working with structured and complex datasets across legal, e-commerce, fintech, cloud analytics, IT, and government environments.

Skilled in transforming and validating data using SQL, Power Query, Excel, Google Sheets, Python, and Google Apps Script, and translating prepared datasets into business reports, KPI dashboards, and actionable insights using Power BI and Tableau. Experienced in connecting BI solutions to BigQuery and working with SQL-based datasets in Azure Databricks.

Strong background in data validation, reconciliation, metric standardization, reporting logic, documentation, and stakeholder collaboration, with a growing focus on data transformation and analytics engineering practices.

TECHNICAL SKILLS & COMPETENCIES

SQL & Databases:

SQL, PostgreSQL, Microsoft SQL Server, BigQuery, RDBMS Concepts, Data Extraction, Data Transformation, Reporting Dataset Preparation

Data Transformation & Preparation:

Power Query (M), Data Cleaning, Data Transformation, Data Standardization, Data Preparation, Data Validation, Data Quality Assurance, Reporting Logic

Data Analysis & Reporting:

Ad Hoc Analysis, KPI Reporting, Executive Reporting, Trend Analysis, Metric Standardization, Business Insights, Forecasting Support, Research Analysis

Business Intelligence & Visualization:

Power BI, Tableau, Looker Studio, Dashboard Development, KPI Visualization, Executive Dashboards

Excel & Spreadsheets:

Advanced Excel, Pivot Tables, XLOOKUP, VLOOKUP, INDEX-MATCH, Power Query, Data Cleaning, Large Dataset Management, Google Sheets

Automation & Scripting:

Python, JavaScript, Google Apps Script, Reporting Workflow Automation

Cloud & Other Tools:

Azure Databricks, Shopify Analytics, GA4, Docker, Superset, Workato, Filevine

Collaboration:

Requirements Gathering, Stakeholder Support, Cross-Functional Communication, Executive Presentations, Reporting Documentation

WORK EXPERIENCE

Freelance Data Analyst & BI Developer

Apr 2024 – Jul 2026

Delivered data analytics, business intelligence, reporting, dashboard development, data transformation, and workflow automation solutions for clients across legal, e-commerce, fintech, cloud analytics, and IT industries. Collaborated with stakeholders to develop reporting solutions, improve data quality, automate manual processes, and support business decision-making.

Law Firm | BI Developer

Aug 2025 – Jul 2026

- Connected Power BI reports to **BigQuery datasets** and transformed source data using **Power Query and BigQuery views**, preparing datasets for reporting and dashboard development.
- Applied data preparation, filtering, transformation, validation, and reporting logic to improve the reliability and consistency of dashboard datasets.
- Built and maintained **Power BI dashboards** tracking firm-wide, attorney, and paralegal performance metrics, including case counts, client recovery, NPS scores, billing rates, and CAQs.
- Developed executive dashboards presenting high-level KPIs, performance metrics, and business trends for firm leadership.
- Managed recurring reporting cycles and prepared structured daily and weekly performance updates for BI and efficiency meetings.
- Performed data validation and quality assurance across source data, transformed datasets, and dashboard outputs.
- Documented dashboard logic and reporting processes to support accuracy, consistency, and maintainability.
- Collaborated with stakeholders to gather reporting requirements and improve dashboard usability and reporting efficiency.

- Utilized **Excel and Google Sheets** where applicable to support data preparation, validation, and reporting workflows.

E-Commerce | Data Analyst

Jan 2025 – Dec 2025

- Collected and consolidated e-commerce, customer, revenue, and marketing data for recurring daily, weekly, and monthly reporting.
- Cleaned, validated, and standardized large datasets using **SQL and advanced Excel**, preparing reliable data for analysis and reporting.
- Built **Excel and Google Sheets** reports and dashboards tracking conversion rate, ROAS, AOV, retention, revenue, and campaign performance.
- Developed ad hoc analyses and recurring reports to monitor customer behavior, revenue performance, and marketing effectiveness.
- Automated reporting workflows using **Python and Google Apps Script**, reducing repetitive manual data preparation and reporting tasks.
- Extracted affiliate marketing data from Pepperjam Ascend and performed web scraping to supplement campaign reporting.
- Analyzed prepared datasets to identify trends, performance patterns, and opportunities for improvement.
- Supported marketing stakeholders by translating analytical findings into actionable performance insights.

Enterprise Cloud Analytics | BI Developer

May 2025 – Jun 2025

- Queried, transformed, and validated enterprise datasets using **SQL in Azure Databricks**, preparing data for downstream reporting and analytics.
- Developed **Tableau dashboards** using transformed datasets to support enterprise reporting initiatives.
- Applied data validation and quality assurance procedures to improve dataset accuracy and reporting reliability.
- Collaborated with stakeholders to define KPIs, reporting requirements, and dashboard metrics.
- Supported reporting pipeline optimization and improved the preparation of datasets used for enterprise analytics.
- Utilized **Excel and Google Sheets** as supporting tools for data review, validation, and reporting activities.

Fintech | Data Analyst

Apr 2024 – Jul 2025

- Annotated, validated, and structured financial datasets using **Python and SQL**.
- Prepared standardized datasets for reporting, research, and business analysis.
- Conducted ad hoc financial research supporting risk evaluation and market insights.
- Automated data validation processes using Python and documented reporting workflows.
- Applied structured quality checks to improve dataset consistency and accuracy.

IT Company | Data Analyst

Apr 2024 – Nov 2024

- Prepared and managed operational datasets using **SQL and Google Apps Script** to support recurring reporting and dashboard development.
- Built dashboards monitoring sales performance, customer satisfaction, and churn metrics.
- Used **Google Sheets and Excel** to organize, review, and support analysis of operational and customer datasets.
- Analyzed customer and operational data to identify trends, performance patterns, and improvement opportunities.
- Delivered recurring reports supporting retention strategies and operational decision-making.

City Government of Antipolo

Administrative Assistant II

Feb 2023 – Aug 2024

- Reviewed, encoded, and validated operational and financial records submitted by multiple departments, ensuring completeness, consistency, and accuracy.
- Conducted daily audits of collectors' receipts and supporting documents to verify completeness and compliance.
- Identified and resolved data discrepancies by coordinating with collectors and concerned offices.
- Consolidated validated records into summary reports for management review and audit support.
- Maintained organized digital and physical filing systems while ensuring compliance with data privacy and records management standards.
- Applied structured data validation and documentation practices to maintain accurate financial and operational records.

Revenue Collection Clerk I

Sep 2018 – Feb 2023

- Recorded daily revenue collections and transaction data into official government systems.
- Verified payment records against official receipts and supporting documentation to ensure data accuracy.
- Reconciled daily transaction totals and prepared summary reports for financial reviews and audits.
- Identified and resolved discrepancies before final posting.
- Retrieved historical financial records to support audits, reconciliation activities, and management requests.
- Maintained compliance with government financial procedures and documentation standards.

EDUCATION

- **Bachelor of Public Administration (Currently Enrolled)**
Polytechnic University of the Philippines – Open University
- **Associate in Computer Science**
Datamex Institute of Computer Technology – Antipolo, Rizal

CERTIFICATIONS

- Data Analysis Using Python
- Python for Data Science
- Data Science Foundations – Level 1
